Following discussion, a motion was made by Terry McCallie to allow bobtails to load at terminals. Motion was seconded by David Remy. Motion Carried.

VI. Weights and Measures:

Mr. Charles Beckham with Budget LP addressed the board concerning the new Weights and Measures rule that requires all meters rated at 20 gpm or less to be temperature compensated. The LP-Gas industry has had a waiver for this since 1987. As of January 2026, all new installations are required to have temperature compensation. This will cost the industry, or the consumer, over \$1,000,000 dollars to comply. Mr. Beckham is seeking support from the board to ask the APGA to address this with Weights and Measures to put the waiver back in place. The board agrees with asking the APGA to address this with Weights and measures.

VII. APGA

Mr. JC Cox addressed the board and gave an update on training. The APGA has secured 13 locations around the state to provide initial training for permits 2-10 and reoccurring training for all permits.
